PROFESSIONAL SUMMARY

Computer Science graduate with experience building and deploying full-stack applications using Python, FastAPI, React, PostgreSQL, Docker, REST APIs, and AWS. Experienced in backend API development, authentication, relational databases, cloud deployment, and AI integration, with additional experience contributing to public open-source projects.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript/TypeScript, Java, SQL, HTML/CSS, C++, C#
- **Technologies:** FastAPI, React, Next.js, Node.js, PostgreSQL, SQLAlchemy, Docker, REST APIs, Git/GitHub, AWS (EC2, Amplify, CloudFront), OpenAI API
- **Concepts:** Object-Oriented Programming, Algorithms, Data Structures, API Development, Authentication, Software Testing, Machine Learning Fundamentals

PROJECTS

PantryPal AI | [Demo](#) | [Code](#)

- Developed a full-stack management application using FastAPI, Python, React, PostgreSQL, SQLAlchemy, and Docker.
- Built secure REST APIs with JWT authentication, CRUD operations, search, filtering, and guest access.
- Integrated the OpenAI API to generate recipes and deployed on AWS using Amplify, EC2, and CloudFront.

Stable Ops API | [Demo](#) | [Code](#)

- Developed a full-stack stable management system using FastAPI, React, PostgreSQL, SQLAlchemy, and Docker.
- Built secure REST APIs with JWT authentication, role-based authorization, CRUD operations, filtering, pagination, and sorting.
- Designed relational database models and responsive React dashboards and deployed using Vercel, Render, and Neon.

Smart Pricing Engine | [Demo](#) | [Code](#)

- Developed a pricing optimization platform using FastAPI, Python, and JavaScript.
- Built REST APIs and an analytics dashboard for pricing recommendations.
- Applied machine learning models to improve pricing decisions.

OPEN SOURCE CONTRIBUTIONS | May 2026-Present

- Contributed code and documentation improvements to multiple public open-source repositories through GitHub.
- Submitted and merged pull requests involving Java, Python, SQL, C, JavaScript, JSON, and Markdown.
- Collaborated using Git branching, pull requests, code reviews, and issue tracking.

PROFESSIONAL EXPERIENCE

Operations Assistant | Trimble Equine Center | Dec 2024 – Sept 2025

- Managed daily operational workflows in a time-sensitive environment, ensuring consistency and accuracy.

Stay-at-Home Parent | 2019 – Present

- Managed competing priorities while strengthening communication, organization, and problem-solving skills.

Web Developer (Volunteer) | Black Horse Trading Co. | 2015-2019

- Designed a responsive website to showcase weekly market inventory, using HTML, CSS, JavaScript, and jQuery
- Managed website updates, hosting, and SEO improvements.

EDUCATION & CERTIFICATIONS

- B.S. in Computer Science | Western Governors University | September 2025
- MBA - Master of Business Administration | Ottawa University
- LPI Linux Essentials (Jan 2025)
